Consultants & Acceptances (Pty) Ltd

Established in 2000, Garagesure Consultants and Acceptances (Pty) Ltd is an Underwriting Agency in Johannesburg, providing innovative insurance solutions for the Fuel Retail and Fitment Centre industry.

Over the last 20 years, Garagesure has established itself as a formidable player within our niche with the support of Compass Insurance Company Limited, Lireas Holdings (Pty) Ltd and Hannover Reinsurance Group Africa.

Making your business as sustainable as possible we know we have achieved the goal of our business which is about caring for people and helping you to manage the risk associated with your business. Our ethos is to be an underwriting manager that is always approachable, flexible and where good underwriting skills and logic prevail. At Garagesure we understand that every retailer is a person with ambitions to run a small business in their community where reputation and service are pivotal to their survival. We are therefore focused on the long-term sustainability of these businesses with a product that will cover the risks of the entire retail site.

Our multiperil policy covers the risks associated with the forecourts, underground storage, retail and buildings. Fitment Centres also carry unique risk in terms of their motor internal and machinery breakdown risk and our policy has become more specialised to cater to your unique risk.

We live by our motto “Real People. Real Service.”

We are not bots. We listen. We care.
