

Envirosure Underwriting Managers is a niche Underwriting Agency specializing in Environmental liability and clean up Insurance, including contamination and rehabilitation for transporters carrying hazardous goods.

Our Mission: is to develop an innovative hazardous spillage clean – up and liability insurance products for the South African broker market.

Objective: is to provide a unique benefit with personal service, allowing brokers to place hazardous risks with Envirosure at a competitive premium for the underwriting risk and commodity carried.

Unique Benefit: Envirosure has a 24 hour toll free call centre called Hazcall24, with qualified operators who will immediately mobilize our preferred response units to the incident scene. A National and cross border network of clean up agents have been recognized to deliver a prompt and professional service to your clients.

With the joint expertise of Envirosure and Hazcall24 we can confidently say:

- Personal service and expertise are our strengths
- We understand the Environmental pollution business, nature of risk and control them accordingly.
- We offer a 24 hour call centre for all incidents to be reported and response units will be mobilized immediately, using the best service providers available.
- We offer Excess Buy Down
