MiHelp+

Emergency Alert service is automatically available on each vehicle where MiHelp+ is noted as included on my Coversheet. The impact sensor on the device installed in the risk vehicle will alert the MiWay 24/7 emergency call centre should it detect an impact. Should the impact be severe or critical a MiHelp agent will contact me on the number noted on my policy. Should I not be reachable, an ambulance will be dispatched to the location of the risk vehicle.

MiHelp+ covers the cost of the ambulance services should I not have sufficient medical cover in place.

WeDrive

I have 6 FREE WeDrive trips per year on my policy provided I have a vehicle on cover where Roadside Assistance is noted to be included on my Coversheet. Any person driving the risk vehicle may utilize this service.

WeDrive is a home-drive service, which sees to it that I am driven home safely in my own car after a night out on the town. The service is currently available in the following cities: Johannesburg, Pretoria, Cape Town, Durban, Bloemfontein, Nelspruit, George, Port Elizabeth and East London.

To book a WeDrive trip, I simply need to call MiHelp on 08600 767 64 at least 2 hours before I need to be collected. For collections at peak times I need to make a booking at least 48 hours in advance. These include weekends, public holidays (the night before and on the day) and, in some instances, major public events that happen within the covered areas.

I need to ensure that calls for collection are made before 01h00. The earliest pick up will be done at 05h30 and the last will be at 03h00.

Two WeDrive drivers will be dispatched to the risk vehicle's location at the agreed time, and will call me once they've arrived. For a complete set of FAQs on this service, I should visit www.miway.co.za/wedrive.

MiHelp Medical Access

If I am involved in a Medical Emergency, MiHelp will provide the following services. However, all costs incurred are for my own account.

Medical Advice and Information Hotline

Medical personnel, including paramedics, nurses and doctors, are available 24 hours a day to provide general medical information and advice. This is an advisory service only, as a telephonic conversation does not permit an accurate diagnosis.

Emergency Medical Advice and Assistance Hotline

In addition to the general medical advice service, one call to the same number will trigger the MiHelp medical operators who will guide me through a medical crisis situation, provide me with emergency advice and organise for me to receive the support I need utilising the 24-hour Alarm Centre Doctor. The service includes: rape, family and domestic abuse, trauma, child abuse, bereavement, HIV, suicide and poison hotline.

Emergency Medical Response to the scene of a Medical Emergency

An appropriate road and/or air response, whichever is the most medically appropriate and within the area, will be undertaken utilising an ambulance, a rapid response vehicle or a helicopter immediately to the scene of the medical emergency where appropriate life-saving support will be provided to me and where relevant, I will be stabilised before transfer is provided to the closest, appropriate medical facility.

Medical Transportation

In the event of my involvement in a Medical Emergency, MiHelp will arrange for Emergency Medical Transportation, if required, by road and/or by air ambulance, under appropriate medical supervision to the nearest medical facility capable of providing adequate care.

Inter-Hospital Transfer

I will be transported by road or air ambulance, whichever is most medically appropriate in the opinion of the attending doctor, one way to a more suitable or appropriate medical facility for managing my condition.

Medical Repatriation

In the event of my hospitalisation outside of my hometown (greater than 100km from my place of residence), MiHelp will arrange for my repatriation to a hospital in or near my hometown.

Escorted Return of Minors

In the event of my minor children being stranded as a result of my hospitalisation, MiHelp will arrange for their transportation, under supervision where necessary, into the care of a person nominated by me.

In-Hospital Medical Monitoring

MiHelp will monitor my medical condition for the duration of my hospitalisation outside of my hometown. Should I require it, MiHelp will keep a nominated family member or business colleague informed of my medical progress.

Compassionate Visit

Should I be hospitalised outside my hometown for a period exceeding 5 consecutive days, MiHelp will arrange for the transportation of a close relative to visit me.

Repatriation of Mortal Remains

In the event of my death outside of my hometown (greater than 100km from place of residence), MiHelp will assist with the necessary formalities involved in transporting my mortal remains to a location in my hometown.
