

For over 20 years, Cyclesure have been serving the cycling community with service levels that rate amongst the best in the insurance industry.

We pride ourselves as South Africa's - BICYCLE GURUS - our team know bicycles and are trained in bicycle mechanics.

What sets us apart from other insurance providers is our 24-hour claim settlement dynamic. 95% of all our claims are settled in just 24 hours as it is our goal to get our clients back on their bicycles, be it for a race or to continue with a training programme.

We partner with more than 400 brokers that trust us with providing cover for their client's bicycle and cycling gear.

Cyclesure offers a niche product to all cycling enthusiasts and does not limit this offering to an elite group only. We welcome cyclists from 'all rides of life' to experience our outstanding benefits on offer.
